Yes, we probably should walk it with someone and we can look at existing and also confer on best places for new trees! Exciting!

Hi Carla,

We are going to remove the planting that was previously shown between the new bike path and on-ramp and replace it with boulders. We are also going to add some buckeye trees to the area. Are there any trees that should be removed? I think one of the pines is already gone from the streetview below. Should we walk the site with someone from BUF to review?

Thanks,
David
